

Settlement Instructions

Foreign Currency Account Settlement Instructions

June 2019

Depending on where your bank is domiciled, there are two ways to fund your account:

- Transfer/Direct Credit: This is used when paying from your Australian domiciled bank account into the Direct Broking Australian domiciled account. Note: if you have an account outside of Australia and are funding your AUD account, please use the New Zealand domiciled account listed below.
- IMT (International Money Transfer): This is used for all other currencies.

Please be sure to reference your name and Direct Broking account number on each transaction.

Note that cash will NOT be accepted at any Branch.

If you have questions about these settlement instructions, please contact us at info@directbroking.co.nz
